

Local shopping district store tour

A tour around the local "gems" recommended by each store with a store owner (guide) who is well-versed with the shinmachi shopping district.

In this lunch-inclusive course, you will be introduced to the gourmet food found only in Aomori with the recommendation of the shopping street store owners. During this course, you can enjoy tea time in Aomori's long-established confections store. And since entering a store is not something you can do easily on your first time, this tour will surely have a charm found in no other tour because of having a local shop owner as your guide.
